THE GRAND ILLUSION CO

We don't wish to alarm you but carpet is about to become a whole lot more interesting, thanks to the all-new Monogram range by Signature Floorcoverings. The Monogram range is truly unique, with designs and multilevel textures that are only now possible due to the most advanced & environmentally sustainable manufacturing techniques. The Monogram range has been developed as a design 'accent' for your home. The concept allows you turn entertainment or entrance areas into features, whilst still having the comfort, convenience & sound attenuation qualities of carpet. And as the entire Monogram range is classed 'domestic heavy duty', your carpet will look as good in a decade as it does today*. Take a good look at the Monogram range & imagine how you could leave your mark.

 SIMPLE, EVEN PREDICTABLE
 GRAND ILLUSION**

WITH SOMETHING SO UNIQUE, SHE FINA

The entire Monogram range is protected by 'Complete' soil and stain protection & makes it nearly impossible for any liquid to penetrate the fibre, this is done by treating the carpet from top to bottom instead of just the surface.
 The Monogram range of carpets are all treated with 'Complete' soil & stain protection & carry a 10 year Warranty.
 Refer to the Signature Floorcoverings carpet warranties & maintenance guide for more information relating to warranties.

SHE FINALLY FOUND SOMETHING TH

softbac platinum

The Monogram range features Softbac platinum, a revolutionary carpet backing that improves acoustic & thermal values and comes with a 10 year no-wrinkle warranty. What makes this range of carpet even more impressive is the fact that the entire Monogram range has a width of 4.572 metres. This reduces the need for joins and creates a more professional finish. Refer to the Signature Floorcoverings carpet warranties & maintenance guide for more information relating to warranties.

Permanent Pile Reversal

Permanent pile reversal occurs when areas of the carpet appear to become darker or lighter than the surrounding areas. This can occur randomly in any cut pile carpet and is a largely unexplained phenomenon which can not be predicted or prevented. It appears to be related to location of use rather than the type of carpet construction or materials used. This is considered a phenomenon and is not a manufacturing fault. It does not have an adverse effect on the performance of the carpet. Colour may vary from dye lot to dye lot. Refer to the Signature Floorcoverings Carpet Warranties & Maintenance Guide for more information.

**“FASHION IS NOT SOMETHING THAT
EXISTS IN DRESSES ONLY.
FASHION IS IN THE SKY,
IN THE STREET,
FASHION HAS TO DO WITH IDEAS,
THE WAY WE LIVE,
WHAT IS HAPPENING.”**
