

# Flexo Green Tag Certificate

Signature's Flexo Rubber Flooring first to receive Green Tag® Certification!

Accredited as Australia's first Eco-Specifier Green Tag® GreenRate certified rubber flooring product, Signature Floorconcepts' FLEXO™ rubber collection sets the benchmark for environmentally friendly commercial flooring with its Level A Rating - whilst offering every perfect shade of emerald, lime and mint!

As well as forest, jungle, apple and olive, FLEXO™ rubber is stocked in a multitude of colours, as it can be specified in PMS for exactly the shade desired. It can be smooth, textured or studded. It can be laser cut too, offering the versatility of which designers can only dream.

The ideal green floor not only looks great, it meets expectations for sustainable building practices and indoor environmental quality.

FLEXO™ achieves 100% of the points in the Green Star™ Materials Calculator, thus achieving the highest accreditation possible for a commercial carpet and flooring product.

FLEXO™ rubber products contain up to 30% post-industrial recycled content, and manufactured with fully assessed and safe constituents. Flexo is produced under ISO 14001 certified conditions where attention to material waste and energy efficiencies are closely controlled.

FLEXO™ rubber is assessed as a low VOC emission product and will gain you an additional 2 points in the indoor environment quality (in Greenstar IEQ) .

Warranted for twelve (12) years, Flexo rubber tile will provide cost efficient, design friendly, high performance flooring in your next Greenstar project.

FLEXO™ rubber is preferred 'green' flooring for your next project in exactly the colour you want.
