braided STORY

Signature

A collection that celebrates connection — of fibres, spaces, and stories. Like a single thread woven through fabric, each plank interlaces subtle colour and texture to create surfaces that are both durable and refined. Together, they form patterns that anchor a space while carrying narratives of journeys, moments, and memories. Braided Story is more than flooring, it is a reminder of the threads that bind us and the artistry that emerges when they come together.

INTRODUCING

braid

At the heart of the collection lies Braid, a design that embodies the quiet strength of connection. Its neutral palette speaks in hushed tones, a grounding weave that allows the architecture of space and the stories within it to shine. The woven pattern draws inspiration from the timeless gesture of braiding, where individual strands unite to form something stronger and more beautiful than they are alone.

INTRODUCING

thread

A calm evolution of its counterpart, Thread shares the same interwoven structure and grounding neutrality, yet introduces a delicate thread of colour across its surface. The light infusion doesn't dominate, instead it whispers personality, where even the smallest threads can shift a story, adding depth, warmth and character while remaining timelessly versatile.

THREAD / TWISTED MAUVE / 08-155PLCB

When combined with Vivid 202,
Thread takes on a more confident
presence. Together they tell a story
where subtle and striking coexist,
layering zones with nuance,
contrast and cohesion.

More than durability and flexibility, the combination of Braid and Thread lays a foundation that is both grounding and uplifting for education and learning environments. The understated woven tones unify classrooms, libraries and communal areas into spaces that support concentration, collaboration, and creativity.
