INSPIRED BY NATURE

Inspiration can come from anywhere, yet few things eclipse the creativity of nature. From the microscopic to monolithic, nature provides cycles, diversity, beauty, colour, sensory encounters and random events that never cease to change and challenge us.

INSPIRATION

The setting sun over Painted Hills, Oregon, adds warmth to the mountains and layers of earth. Sand from a journey through the hills of ancient history where a play of tones creates texture and extracts emotion.

WN

1904-0100

EXCITED BY ABSTRACTION

Abstraction inspires us to explore systems, sequences and patterns.
It reminds us that fresh combinations and previously unrelated thoughts, materials and ideas,
can result in extraordinary new insights and solutions.

INSPIRATION

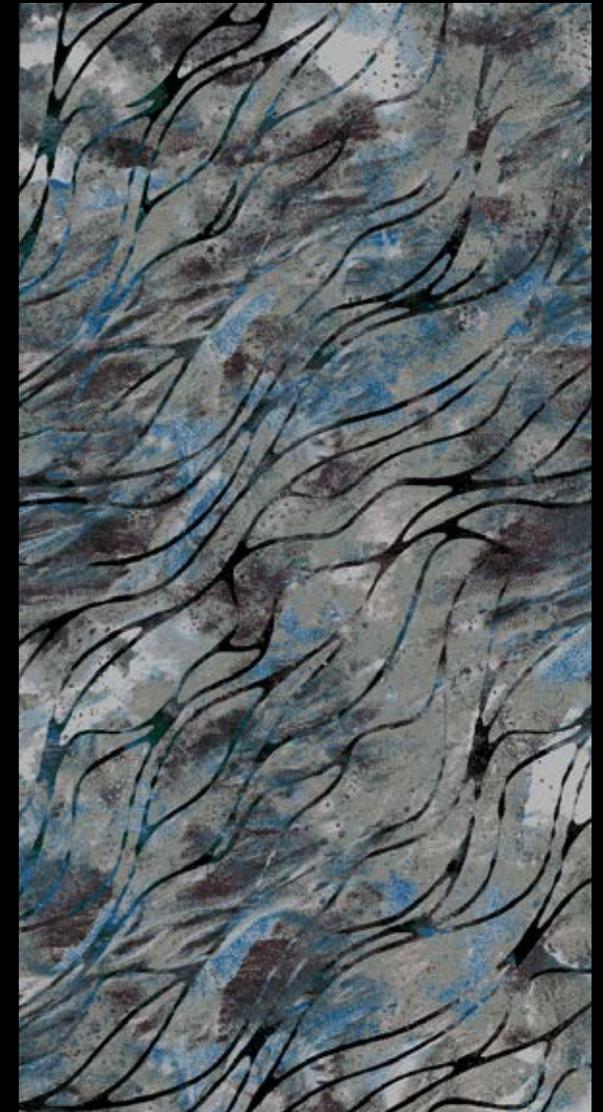

Curved patterns made by brushstroke, formed like peaks in a tide, waves unbound by gravity and aligned with the moon. Forging a new horizon, a new direction, a surrender to the creative process.

*MOVED BY OUR
BUILT WORLD*

From the ancient to the most contemporary man-made structures,
the built world's mastery of stone, steel, wood and glass encourages our drive
to extend beyond boundaries and strive for new heights.

1903-0031

INSPIRATION

An aluminium perforated grid – strong and rigid, cool and smooth, with a continuous perfect pattern, until it ends. A true representation of the built world colliding with our ideas.
