

# Friendly Green Tag Certificate

Signature's Friendly Tiles Flooring first to receive Green Tag® Certification!

Accredited as Australia's first Eco-Specifier Green Tag® GreenRate certified carpet tile collection, Signature Floorconcepts Friendly Tiles™ carpet tile collection sets the benchmark for environmentally friendly commercial flooring with its Level A Rating - whilst offering a wide variety of colours and patterns!

With 8 different patterns, and over 50 colours in two available backing systems, Signature Floorconcepts now offer two excellent flooring products that offer full points to Greenstar focused projects. Most collections are stock programs and can be delivered within 2-5 days.

The ideal green floor not only looks great, it meets expectations for sustainable building practices and indoor environmental quality.

Friendly Tiles™ achieve 100% of the points in the Green Star™ Materials Calculator, thus achieving the highest accreditation possible for a commercial carpet and flooring product.

Friendly Tiles™ carpet tiles contain up to 30% post-industrial recycled content, and manufactured with fully assessed and safe constituents. Produced under ISO 14001 certified conditions where attention to material waste and energy efficiencies are closely controlled.

Friendly Tiles™ is assessed as a low VOC emission product and will gain you an additional 2 points in the indoor environment quality (in Greenstar IEQ) .

Warranted for fifteen twelve (15) years, Friendly Tiles™ will provide cost efficient, design friendly, high performance flooring in your next Greenstar project.

Friendly Tiles™ is preferred 'green' flooring for your next project in exactly the colour and pattern you want.
