

signatureLVT secret advantage

Install CLICK Underlay

Signature Floors' Secret Advantage™ Underlay for CLICK LVT floors smooths out small irregularities* to create the ideal foundation.

CLICK Underlay can be laid over existing floor coverings like ceramic tiles, lino, rubber, PVC, laminate, parquet and level floorboards, as long as the sub floor is clean, flat, dry and dust-free. The sub floor should also be of normal porosity and free from contaminating products.

CLICK Underlay should only be used in rooms with a floor temperature of minimum 18°C with a relative humidity of less than 75 %. CLICK Underlay can also be installed with underfloor slab heating.

Make sure the packaging is not damaged prior to installing. Lay the sheets joint-to-joint with the FILM SIDE FACING UP at an angle of ca. 90° counter to the laying direction of your new floor. No need to fix one sheet to another.

Separate the PET-film from the sheet and begin laying your new Signature CLICK floor according to the fitting instructions. Do not use primer on **CLICK Underlay**. **CLICK Underlay** can be cut easily with a knife.

**irregularities no bigger than 5mm wide & 2mm deep, such as tile grout lines.*

underlay between CLICK LVT & irregular sub-floor surface for optimum performance

underlay prevents show-through of sub-floor irregularities <2mm deep & <5mm wide

The Secret Advantage!

Technical Data

Composition:	Permanent resilient underlayment with mineral fillers & Polyurethane binder
Thickness:	1.5 mm (± 0.15 mm)
Roll format:	approx. 10 m x 1 m (10m ² per roll)
Weight/m²:	1.5 kg/m ² (± 0.15 kg/m ²)
Weight per roll:	15 kg/roll
Fire Rating:	Bfl- S1as per EN 13501-1
Acoustic:	ΔLw= 12dB in combination with 4.5mm Click LVT AS/NZE 140-8

Warmer
keeping warmth in the room
